The FinancialU

PROTOCOL REFERENCE

Liquidity Provider Commitments

Understand your commitment before supplying liquidity to The FinancialU protocol. Your principal and earned yield have different withdrawal terms.

Choose a commitment from 0 to 10 years

Select your commitment period before supplying capital. Review your chosen term and commitment end date in the lending portal.

Principal stays committed until the term ends

Your principal cannot be withdrawn before the commitment you selected ends. Plan your cash needs before choosing a term.

Earned yield can be withdrawn at any time

Your earned yield is separate from your committed principal. You can withdraw earned yield at any time. Yield is paid out rather than automatically compounded.

Review your commitment before you supply

Check the current terms and your position at lending.thefinancialu.com/liquidity. Commitment details, yield, and withdrawal terms should be reviewed in the portal.

Educational information only, not a guarantee of returns or protection from loss. Review the protocol's lending, market, and smart-contract risks.
